Actually I am the chair and we have a charter (Ed, please send me a copy). I can't believe my luck!!! Who are the members of your committee? Has your committee or the CMS led DPMC specifically addressed any of the recommendations cited in Bob Walpole's 'Lessons Learned' paper and, if so, which ones? In order not to have more meetings than needed, and given some overlap between membership on the PDCC and the parent, CMS-led Declassification Program Managers Council (DPMC), the PDCC discusses special search coordination issues at each DPMC meeting and if there is a need we will commission the PDCC to have additional meetings to deal with particular issues. At present [redacted] in OIM is working on draft special search procedures that we will bring before the PDCC for coordination. when do you plan on presenting the special search procedures to PDCC? Will you ask [redacted] to send me a copy of the draft?

Besides drafting special search procedures, has the PDCC or the CMS led group established other guidance or standards to use in declass projects (and, if so, what are they)?

a totally unrelated question-
